PROFILE.**

PRIMETIC
(Pvt) Limited.

Testing, Inspection and Calibration Services Provider

www.prime-tic.com | info@prime-tic.com
Head Office & Labs: Mezzanine Floor, Suit 11-2, Sector B-2, Township, Lahore, Pakistan.

COMPANY PROFILE

Prime TIC is your trusted One-Stop Testing, Inspection, Certification, Training, and Calibration (TIC) Partner. Our customized training programs are designed to strengthen the competence and capacity of your human resources, enabling sustainable organizational growth. Backed by state-of-the-art equipment and a highly skilled technical team, our testing and calibration services ensure the accuracy, reliability, and traceability in line with national and international standards.

VISSION

To become the first-choice partner for total quality assurance across the industries we serve.

MISSION STATEMENT

Our mission is to serve as a trusted partner in total quality assurance by offering accredited, impartial, and globally acceptable testing, inspection, calibration, and training services, driven by technical competence, integrity, and continual improvement, enabling our clients to meet regulatory requirements and compete confidently in international markets.

OUR CALIBRATION CAPABILITIES

Mass & Weight Calibration

Calibration of analytical balances, precision scales, industrial weighing systems, and reference weights to ensure accurate mass measurements critical for formulation, batching, and quality control.

Thermal Calibration

Calibration of thermocouples, RTDs, digital thermometers, ovens, furnaces, incubators, autoclaves, freezers, and temperature data loggers used in testing and production environments.

Volume & Flow Calibration

Calibration of pipettes, burettes, dispensers, volumetric glassware, calibrated tanks, and flow measurement devices to support laboratory testing and process control accuracy.

Pressure & Vacuum Calibration

Calibration of pressure gauges, transmitters, sensors, dead-weight testers, and vacuum measuring devices for safe and reliable operation of pressurized systems.

Length & Dimensional Calibration

Calibration of vernier calipers, micrometers, height gauges, dial indicators, and dimensional measuring tools used in manufacturing and inspection activities.

Electrical Calibration

Calibration of multimeters, power supplies, insulation testers, and electrical measuring instruments for accurate monitoring and control of electrical parameters.

Time & Frequency Calibration

Calibration of timers, stop-watches, clocks, and time-based controllers essential for process timing, stability studies, and production sequencing.

Analytical & Electrical Calibration

pH meters, conductivity/TDS meters, turbidity meters, multimeters, insulation testers, energy meters and electrical instrumentation.

OTHER SERVICES

Training Services

- ISO/IEC 17025
- ISO 9001
- Internal Auditing
- Measurement Uncertainty and CMC Calculation
- Method Selection, Verification and Validation
- Calibration Procedures
- International Standard
- Inspection and Verification Protocols

Qualification Services

- Instrument of Quality Controls /QA/R&D
- Machines /Equipment of Products
- Qualification of Stability Chambers

Thermal Mapping

- Ware Houses
- Cold Rooms
- Freezer & Transport Vehicles

Lifting Equipment Inspection

- Cargo Lift Inspection
- Passenger Lift Inspection
- Modification
- Lifter Inspection
- Hand Pallets Inspection
- Crane Inspection
- Safety Harness Inspection
- Hoist Inspection
- Training with LEEA Certified Inspector

INDUSTRIES WE SERVE

- Textile & Apparel
- Yarn & Fabric
- PPE & Protective Clothing
- Leather, Footwear
- Environmental Sector
- Chemicals & Chemical Products
- Engineering Services
- Machinery and Equipment
- Cosmetics & Personal Care
- Food & Beverage Processing Unit
- Pharmaceutical /Nutraceuticals
- Hospitals & Healthcare Facilities
- Surgical Instruments Manufacturers
- Medical/Diagnostic Laboratories
- Fertilizer & Pesticide Manufacturers
- Petroleum & Power
- Pulp, Paper and Paper Products Industry
- Packaging
- Printing & Publishing Industry
- Plastic & Rubber Parts Manufacturers
